Learn all continents and oceans with this printable set of free continents and ocean worksheets for children! There is a selection of worksheets in this package, with various approaches to learning continents and oceans to offer maximum diversity for the participation of the learning experience. \* This post contains affiliate links \* Continents and Oceans Worksheets (Free Printable) Many children struggle with geography, and learning continents and oceans can be a difficult challenge. Often there are problems with learning and recognizing (on the map) of Africa and South America, as they may seem and wrong the oceans is a common problem too. Most kids manage to dominate over time, practice certainly makes a difference and this is where this set of attractive worksheets comes in. How many continents? How many oceans? There are 7 continents in all these printable although we know that some places teach different numbers (from 4 to 7). How many should you teach your children and students? The number depends on your school system, so we advise you to stay with the official version of your region. We also advise you to teach your children that different countries can teach differently. It's always a fun fact for kids to listen to! What is the best way to teach continents and oceans to children? If children are not yet familiar with the names we suggest from word search puzzles. Try your children a map or an atlas along with word search puzzles and let children also find the continents and oceans as they solve the puzzles. It's stress-free and fun. Depending on the age and knowledge your children or students have, then continue with the use of other worksheets that focus more on identifying continents and oceans on world maps. Blank map makes a perfect spreadsheet! We have also prepared a blank map, which will help your children to practice the knowledge acquired even more.
